

FUTURE IBECHE

.NET Developer | C# | React | SQL | ASP.NET Core

 wisdomf41@gmail.com |  GitHub / LinkedIn (on request) |  Nigeria

SUMMARY

C#/.NET Developer with 1+ years of experience building full-stack applications using ASP.NET Core Web API and React. Skilled in REST APIs, SQL, and performance optimization, with a proven record of improving application efficiency, resolving bugs, open to continuous learning and growing and collaborating in agile development teams.

EXPERIENCE

Junior .NET Development

Metclan Technologies

2025-2026

- Developed and maintained full-stack applications using ASP.NET Core Web API backend with React frontend.
- Built responsive user interfaces with React components, hooks, and state management for improved user experience.
- Integrated React frontend with .NET backend APIs, handling data flow and API calls efficiently.
- Implemented SQL queries in Entity Framework Core, increasing data retrieval speed by 25%.
- Collaborated with a team of 10+ developers to deliver robust software applications using Git for version control.
- Optimized code for various applications, leading to improvement in application performance.

Software Developer

Loctech Training Institute

2024-2025

- Developed applications using .NET, C#, HTML, CSS, JavaScript, and jQuery.
- Contributed to a healthcare system improving patient records management.
- Successfully identified and fixed 50+ bugs in various applications.

IT/Network Specialist

FirstBank limited

2021-2024

- Installed, customized, and supported desktop, laptop workstations, and software systems for 100+ in-office and remote work users.
- Refurbished 100+ Windows 8 Machines to Windows 10 over four days in preparation for an Office 365 roll-out across the eight regional offices.
- Mentored and supervised 5+ junior team members, and controlled training and information technology systems.
- Managed migration of data storage and backup systems to cloud, enhancing security and disaster recovery.
- Provided onsite IT support for between 20 and 40 calls on a daily basis.

TECHNICAL SKILL

Backend: C#, .NET Core Web API, REST APIs

Database: SQL Server, Entity Framework Core, LINQ

Frontend: React, HTML 5, CSS3, JavaScript (ES6+), Vite

Tools: Git, GitHub, Visual Studio, Azure

Concepts: Full-Stack Development, API Integration, Component-Based Architecture, Authentication & Authorization.

SELECTED TECHNICAL PROJECTS

Resume Website (This Project) -

Tech: React + Vite frontend, ASP.NET Core backend, Azure App Service : Full-stack resume application with responsive design, deployed to Azure cloud.

Task Management API with React Frontend -

Tech: ASP.NET Core Web API, React, SQL Server, Entity Framework : ASP.NET Core Web API, React, SQL Server, Entity Framework, Full-stack task management system with CRUD operations, authentication, and responsive UI.

E-Commerce MVC Application -

Tech: ASP.NET Core MVC, HTML 5, CSS 3, JavaScript, SQL Server : Complete e-commerce solution with product management, shopping cart, and order processing.

Hotel Booking API -

Tech: ASP.NET Core Web API, SQL Server, Entity Framework : RESTful API for hotel room booking with customer management and reservation tracking.

PROFESSIONAL CERTIFICATIONS

- .NET Core Developer Certification** – Udemy (2025)
- .NET Core API Developer Certification** – Udemy (2025)
- Google IT Support Professional Certificate** – Coursera (2024)
- SQL for Data Analysis** – Udacity (2022)

EDUCATION & QUALIFICATIONS

- University of Port-Harcourt** - Bachelor of Engineering (B.Eng., 2Nd Class Upper Division). **2018**

PROFESSIONAL INTERESTS

- Continuous learning in the .NET ecosystem.
- Building scalable and maintainable software solutions.
